This corrects the Case report:

Bara N, Nadasan V, Varga L, Farkas H. **Acquired Angioedema Due to C1 Inhibitor Deficiency Caused by Non-Hodgkin Lymphoma in a Patient with Myasthenia Gravis.** *Rev Romana Med Lab.* 2021;29(4):453-6. DOI:10.2478/rrml-2021-0029

We appologies for omission in the above mentioned article:

on page 454, just before **Case presentation** section:
Patient signed informed consent for publication of her data.
